

Annex 1 Project contribution to Articles under the CBD

Project Contribution to Articles under the Convention on Biological Diversity

Article No./Title	Project %	Article Description
Article 6 General Measures for Conservation and Sustainable Use	5%	Developing a national plan for managing subsistence hunting which integrates conservation and sustainable use into the national biological diversity policies.
Article 8 In-situ Conservation	5%	Managing biological resources important for the conservation of biological diversity whether within or outside protected areas, with a view to assuring their conservation and sustainable use.
Article 10 Sustainable Use of Components of Biological Diversity	10%	Integrate conservation and sustainable use in national decisions; protect sustainable customary uses; support local populations to implement remedial actions; encourage co-operation between governments and the private sector.
Article 11 Incentive Measures	10%	Establish economically and socially sound incentives to conserve and promote sustainable use of biological diversity.
Article 12 Research and Training	10%	Establish programmes for scientific and technical education in identification, conservation and sustainable use of biodiversity components; promote research contributing to the conservation and sustainable use of biological diversity, particularly in developing countries (in accordance with SBSTTA recommendations).
Article 22 Relationship with the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)	60%	Particular emphasis on economics, trade and incentives, indicator, and sustainable use and biodiversity.
Total %	100%	Check % = total 100
