

Living with Elephants in Assam—a handbook—available now!

This handbook will be useful for you if:

- You want to know what you can do to protect your property and crops from elephant damage
- You want to know more about elephants

The methods described in this handbook (detailed with photos) have been used successfully by communities working with the Assam Haathi Project. The methods are easy to follow and use only locally available and affordable materials so anyone who faces problems with elephants can use them.

For more information or a copy of the handbook contact:
